## Local and General:

The Lamps on the front street of the village have been erected once more. Who is to be the next to bring them to mother earth again.

Ivor Lewis was seen wearing a suit of overalls at the beginning of the week, having settled down to the coal business again. He had just received his first car of Galt coal and was unloading it in his shed. Ivor informs us that we can now be assured of getting real Galt coal; not a substitute. It is to be hoped that all old customers and many new ones will give him their orders.

Mr. F. L. Watters, late of Lethbridge, has arrived to take over the management of the local branch of the Canadian Bank of Commerce, in succession to Mr. S. H. Bray, who has been promoted to the management of the Star City, Sask. branch.

10 a.m. Sunday School.  
11 a.m. Morning Prayer, and Sermon.

Lawrence Onitke has got a Sunday clothes job. He has been appointed junior clerk at the local Imperial Bank.

Doe Ford moved out of the premises over the Pool Room to the rooms over his Garage. Sam Collins has moved back over the Pool Room.

Owen Fike has been on the move again, this time he has left town for the farm out west.

We hear the Fike Brothers have given up the Livery barn south of town and intend to take up farming again.

Merriek Thomas is expecting his brother Charlie back home again at an early date. Charlie is believed left England with the 40th Batt. on Saturday last.

Alex. Jessiman has just installed a new welding plant in his shop and will soon be an adept in its use. This will save the necessity of having to send many jobs to Calgary to be welded.

## German Trade After the War

Notwithstanding that Germany has been decisively beaten in the war, and has been forced to submit to a most humiliating armistice amounting to all intents and purposes to an unconditional surrender; notwithstanding that the German army is being disbanded and conscription abandoned; notwithstanding that the big German navy made the most despicable surrender in the history of the world, the entire fleet being meekly handed over without firing a shot despite all the German boasts and toasts to "The Day," and now awaits whatever disposition the Allies finally decide upon, notwithstanding that Germany's Merchant marine is largely in the hands of the Allies; notwithstanding that the Kaiser has been dethroned, the militarist party overthrown, and a republic set up; notwithstanding that chaos approaching anarchy reigns throughout Germany—notwithstanding all these things, and that Germany will be faced with a huge war debt of its own and the obligation of paying billions of dollars to the Allies in reparation for destruction caused and in war indemnities, it would be a mistake to imagine that Germany will not make a desperate attempt to retrieve its losses and again assume a large place in the trade and commercial activities of the world.

Handicapped as Germany is with disorder and almost ruin at home, and degraded, even hated, by the world abroad, the master minds of that country are already engaged in planning for the capture of a goodly portion of the world's trade after the peace treaty is signed and international relations and trade and commerce return to normal peace time conditions. Germany is under no delusion as to the world situation which has developed against her, nor of the magnitude of the task ahead in recovering her former strong position. Nevertheless she is preparing to tackle the problem and even during the war was making preparations for it.

W. N. U. 1254

Those who kept close in touch with German propaganda in Spain during the war, says a writer in a United States paper, have never had any doubt that it was designed as much to secure the position of Germany in that country after the war, as to maintain its neutrality in the war. And as the war went on, the former objective increased in importance and became the chief concern of the Germans. As a nation after another forsok its neutrality, and entered the struggle on the side of the Allies, Germany realized that one door after another was being closed to her in the matter of unrestricted trade development after the war. Hence their determination to secure and maintain in Spain a jumping-off ground for the great reconstruction policy they had in view when peace was declared.

Without going into details, it may be stated that Germany has secured a strong and far-reaching trade foothold in Spain. A well organized system has been created for the handling of German-made goods through Spain and other neutral countries, and forcing them through these channels all over the world. These goods will thus be camouflaged as other than German products.

Already the great shipwreck, which during the war were given over entirely to war purposes, are turning out locomotives at the rate of one a day, and it is stated that a sufficient supply of iron ore from Alsace-Lorraine and Sweden is on hand to enable manufacture to proceed as fast as possible, and that an output of 600 locomotives a year is quite possible. This is Germany already preparing.

Another factor which must be considered is, that while wages and costs of production will remain high throughout the British Empire, the United States, and other countries under the better living conditions which are upon us, the very necessities of the German people will lead to long working hours and comparatively low wages, thus enabling the German manufacturer to produce goods more cheaply than his competitors in Allied countries.

German finance and German trade and commerce has always supported and been the mainstay of German militarism. By the might of German militarism have and larger territories were to be won in order that German industry might flourish and German trade be extended. Germany had its eye on the raw materials of the world, and profitable markets to exploit for the sale of German-made goods. To the extent that Germany succeeds in winning back her old world trade, she will again become a menace to the peace of the world. The Hun has been defeated this time, but the Hun has not changed his nature nor his methods.

There is one course for the people of the Allied nations to adopt. It is a policy of self-protection just as truly as was the waging of the war against Germany. It is for the people of all civilized nations to resolve and grimly determine that never again will they buy a German-made article. Germans do not believe our people will do this. As Herr Bauer, a director of Krupp, stated recently: "Trade is trade and people will buy and people will sell." The democratic, liberty-loving people of this generation should determine that they, at all events, will not buy from Germany, nor purchase any German-made article, no matter from what source it may come.

**Asthma Doesn't Wear Off Alone.** Do not make the mistake of waiting for asthma to wear away by itself. **Minard's Liniment Relieves Neuralgia.**

**Saskatchewan Heaviest Buyer.** Calgary, Alta. — Of Alberta's total coal production of 64,486,200 tons in 1918, 446,620 tons was sold in Alberta. Saskatchewan was the next heaviest buyer, taking 4,372,490 tons, and Manitoba took 511,168 tons. Shipments to Seattle and Spokane markets, that have been served in small quantities for several years, totalled 135,276 tons.

## Nerves Shattered By Operation

**A Most Extraordinary Case of Extreme Nervous Exhaustion and Keenest Suffering From Headaches—Now Entirely Cured**

Mrs. George H. Meadow Brook Farm, Westastia, Vail, Sask., writes: "It is with great pleasure I say a few words of praise for Dr. Chase's Nerve Food. Five years ago, while living in Montreal, I suffered terribly with a severe pain in the right temple. For four months I could not even bend or stoop down to do anything without holding the right side of my head with my hand, the pain was so severe. Besides the headache, there was a discharge from my right ear also, but it caused no pain—only the constant pain in my temple. I could not sleep, and if I lay down at night I could not get my head up, or the pillow under my husband putting his hand underneath the back of my neck to lift me up, I could not bear it any longer. Some of my friends persuaded me to go to one of the hospitals and consult a doctor, so I went to the Royal Victoria Hospital in Montreal; there they examined me, and told me that I would have to be operated on. After I had been in the hospital for a few days, and found that I had a 'stab' of blood in the brain. They said I was very lucky that I pulled through after the operation, as they had given me up for over four days. I was in the hospital for two weeks, and my doctors said I would always suffer with my nerves, because the operation was such a serious one. It shattered my nerves all to pieces. After I came home I could not bear any noise or excitement, the children would shout or bang the door I would jump and give a sharp cry. My nervous system was completely exhausted and I had no appetite whatever. For four days after I had to follow my husband to the Northwest, where he had gone previously to my illness. The doctors told me I was running a great risk to go so soon. However, I came, and after I reached my destination on Saskatchewan I had for some weeks with a nervous breakdown. I was going nearly crazy with my head. A friend asked my husband to try Dr. Chase's Nerve Food. He went to town (which is fifteen miles from here) and brought two boxes. I commenced taking them, and certainly felt much benefited. I took six boxes in all, and I now feel like a different woman. I have no pain in my head, my system is built up, and I can sleep like a top. My appetite is splendid; the children can make as much noise as they like, and it does not bother me. I am certainly cured, and I want to express my heartfelt appreciation of your wonderful medicine. I shall always recommend it and tell others about it."

Dr. Chase's Nerve Food, 50 cents per box. Full treatment of 6 boxes for \$2.75; at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be misled into accepting a substitute. Imitations only disappoint.

## Plant to Improve Horse Stock

**Manitoba Department of Agriculture to Assist Horse Breeders.**  
The Manitoba department of agriculture is making arrangements to assist horse breeders in the province to secure the use of improved stallions. The department of agriculture is arranging to purchase, wherever it is necessary to go for them, high class stallions of the draught breeds, to be sold to farmers at actual cost. As an initial step a survey of the province is being made with a view to ascertaining the requirements. Farmers desiring to go into horse raising are expected to supply full particulars as to the kind of stallions required and the number of such horses needed. The horses will be selected and purchased by competent horsemen in eastern Canada and the United States. They will then be brought to Winnipeg and distributed to the purchasers who will pay cash covering merely the cost of the animals plus administrative expenses.

## SAVED BABY'S LIFE

Mrs. Alfred Tranchmontagne, St. Michel des Saints, Que., writes:—Baby's Own Tablets are an excellent medicine. They saved my baby's life and I can highly recommend them to all mothers. Mrs. Tranchmontagne's experience is that of thousands of other mothers who have tested the worth of Baby's Own Tablets. The tablets are a sure and safe medicine for little ones and never fail to regulate the bowels and stomach thus relieving the mother of the pain which children suffer. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Taxes Help Patriotic Fund

Calgary, Alta. — The wild land tax collected in Alberta last year amounted to \$429,688 and the amount collected on the increment tax was \$102,684. On the supplementary revenue tax, \$613,206.47 was paid to the government and \$997,328.94 is still owing. The amount of money estimated to be collected under this act was \$1,000,000. The patriotic fund was paid \$800,000 for this fund, and \$558,008 was granted for other patriotic purposes.

## Children Love

## Cascarets—10c

**Candy cathartic is harmless to tender stomach, liver and bowels**

Your child is bilious, constipated and has a bad disposition. The cause of all this is a clogged bowels and bad stomach sour. Get a 10-cent box of Cascarets and give it to your child. The right Children Love this harmless candy cathartic and it cleanses the little liver and bowels. The bowels will not griping. Cascarets contain no calomel and can be depended upon to give the most pleasant action right out of the bowels. Best family cathartic because it never cramps or sickens like other things.

## Face An Awful Sight Healed By Cuticura

**Rough and Itchy With Eczema. Came in Pimples and Blisters. Kept From Sleeping.**

"My face got rough and itchy, and I was told I had eczema. It came in pimples and blisters, and my skin was sore and red. My face itched and I had to scratch, and I kept me from sleeping. The skin was dry and scaly, and would bleed. My face was an awful sight."

"I saw an advertisement for Cuticura Soap and Ointment and I sent for a free sample. I afterwards bought more, and it was not over a week when I was completely healed." (Signed) Miss Annie Forgan, Alderson, Alta., Aug. 28, 1917.

If your skin is already itchy and clear keep it so by using Cuticura Soap for toilet purposes and by touches of Cuticura Ointment to soothe and heal any tendency to irritation, redness or roughness of the skin or scalp.

For Free Sample Each, by Mail Address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

## Annuity for Lady Laurier

Ottawa, Aug. 28.—A dispute is on for the capital to have parliament provide an annuity for Lady Laurier. It is understood that the proposal has been tentatively advanced on behalf of the government, but it is not known whether the government will accept. When Sir Wilfrid Laurier was a man of wealth, it is stated that he carried considerable life insurance.

## TRY MAGNESIA FOR STOMACH TROUBLE

**It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Indigestion**

Doubtless if you are a sufferer from indigestion, you have already tried many remedies, soda, charcoal, drugs and various dietetic aids, but you know these things will not cure your trouble—in some cases do harm.

But before giving up hope and deciding upon some desperate remedy, try the effect of a little bi-sulfated magnesia—the only reliable, safe, cathartic—made from pure milk, but the pure bi-sulfated magnesia which you will find in the form of a sugar-coated tablet in either powder or tablet form. Take a few of these tablets with a little water, or a glass of milk, and see what a difference it makes. You will find that it is a safe, reliable, and harmless remedy, and that it cleanses the stomach in any way so that there are any symptoms of acid indigestion.

## Has Kept Record

Prince Rupert, B. C. — This is the mildest winter in 27 years, according to James Adams, of Port Essington, on the Skeena river, near Prince Rupert. He has lived here for about 40 years, and has taken the trouble to keep a record of each winter. There has been practically no frost at all.

The natives of Siam obtain a stream by digging pits about 60 feet deep and dipping it out with pails.

## A NERVOUS BREAKDOWN

**Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.**

Newark, N. J. — "For about three years I suffered from nervous breakdown and got no rest or sleep. I was so weak, I could not stand, and had headache every day. I tried everything, but nothing helped. I could think of and do nothing. I was a doctor's case for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I began to use it, I felt better. I am well and able to do most any kind of work. I have been recommended to give you my permission to publish this letter."—Miss P. O. KELLY, 610 So. 14th St., Newark, N. J.

The reason this famous root and herb medicine is so successful in Miss Kelly's case was because it went to the root of her trouble, restoring her to normal healthy condition and as a result her nervousness disappeared.

OBITUARY

It is with feelings of deepest regret we record the death of Winnifred B. Bills, only child of Mr. and Mrs. T. Bills, which occurred in Calgary on March 5th. She had been ailing for about three weeks and was under the care of Dr. Edwards, of Airdrie, who advised her removal to the Holy Cross Hospital, where everything possible was done to save her young life, but she passed peacefully away on the date stated. Winnie was by her sunny disposition and winning manner a special favorite with young and old in the district.

The funeral took place on Saturday morning from Armstrong's parlors, and was largely attended.

The floral offerings were numerous and beautiful, testifying to the esteem in which deceased was held by all who knew her.

The pall bearers were Z. Archibald, A. Lane, J. Harrington, G. Symons, B. Archibald and Sydney Thorp.

The deepest sympathy is extended to the bereaved parents in their irreparable loss.

General News

Upon instructions from Superintendent W. C. Bryan, the provincial police have since January 1 been examining into the business of liquor selling by druggists in Alberta, and they have found in some cases very loose methods of keeping track of the amount received, and the persons under prescriptions from medical practitioners. The records of a Drumheller drug store were overhauled by Detective Pat S. Fitter, and stock taken of the amount of liquor on hand, which did not tally with the amount shown on the books as received.

The wearing of high heeled boots and shoes is the cause for many women going insane. On the authority of an eminent English neurologist, the wearing of this class of foot wear is the cause of women going mad or suffering from hysteria. One of the first things, according to this authority, that is done when a woman is admitted to a mental hospital in England is to cut down her high heels, if she is wearing them.

High heels, it is claimed by the medical scientists, make it impossible for a woman to walk properly or to take any real healthy exercise. She has got to balance herself all the time, and this, though unconsciously, reacts on her nerves, makes her tired and irritable, and in many cases leads to complete nervous prostration, and in extreme cases to insanity.

Disclosures of a German war-time plot to destroy American shipping on the Pacific coast, were brought to light recently by United States attorneys in their investigation of the charges of the crew of the barkentine Puako, which sailed from Victoria, B.C., for Cape Town, that their captain, Adolph Pedersen, had been so strict that two of the seamen had committed suicide.

Pedersen, known as "Hell Fire" Pedersen, was arrested and is in the Tombs under \$25,000 bail for alleged violation of the Seamen's Law. His two sons, Leonard, 19, Adolph Jr., 18, who were their father's mates, are also under arrest and held in \$5,000 bail. Captain Pedersen now charges that his crew took part in a German plot to scuttle his vessel. One of the chief ring leaders in this plot, the captain said, was Axel Hansen, one of the seamen, who leaped overboard and was drowned. He took German money for such work, it was alleged, and was implicated in other German plots.

(By W. W. Fraser, Live Stock Commissioner)

I have referred to this scheme known (and at one time much ridiculed) as "The Cow Scheme." This plan is being operated under an Act passed by the present Government at the Session of 1916, and was adopted because of conditions existing in some of the outlying districts of the province, where the struggling settler was known to be working under extreme disadvantages, his means not permitting him to purchase, in some instances, even one cow, and where force of circumstances meant that in order that he might receive enough money to keep his family supplied with the absolute necessities of life, he was obliged to seek employment during the latter part of the winter months, and again was often forced to return to the city during the summer months and labor. Particularly was this true of the settlers between Lakes Manitoba and Winnipeg; where the majority of the cows furnished under this policy have been placed. It will be readily seen that these conditions necessitated the absence from home of the bread-winner during the greater portion of the year, and as a consequence his family very deprived of his influence and parental care, and the required improvements on the homestead had to be foregone. Very often this family was forced to live in a one-roomed shanty with scarcely any improvements on the homestead.

The above scheme permitted these settlers to receive from the Government, by way of a club, or a number of settlers going together, cows up to the number of five to each settler. In each case an inspection is made to determine the capability of the individual as to the number of cows he is in a position to care for, after which inspection, cows are advanced up to the number of five, as above stated, according to the man's ability to care for them. The terms are five years, the first payment falling due November 1st, following year in which the cows are based.

The cows are all purchased with

**MOTHER, GIVE CHILD  
"SYRUP OF FIGS" IF  
TONGUE IS COATED**

If cross, feverish, sick, bilious, clean little liver and bowels.

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty its bowels, and the result is, they become tightly coated with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, drowsy. Later, Mother's face is covered, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a healthy child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

## Fourteen State Banks In Minnesota Blow Up

**Outcome Expected to Be a Heavy Loss to Depositors**  
Reports from Minnesota announce the failure of 14 State Banks. The list of these banks is an interesting one, as follows:

Augusta State Bank, Augusta	Capital	\$10,000	Deposits	\$8,847
Chanhassen State Bank, Chanhassen	10,000	109,821		
Farmers State Bank, Cologne	12,000	69,126		
Farmers State Bank, Frontenac	10,000	121,975		
Farmers State Bank, Long Siding	10,000	91,284		
Marine Mills State Bank, Marine Mills	12,000	89,830		
Farmers State Bank, New Prairie	10,000	40,948		
Farmers State Bank, Skyberg	10,000	55,415		
Peoples State Bank, St. Bonifacius	12,000	94,891		
Hamel State Bank, Hamel	10,000	84,797		
St. Louis Park State Bank	10,000	72,383		
Merchants & Miners State Bank, Power	15,000	122,463		
Waconia State Bank, Waconia	10,000	253,584		
Farmers & Merchants State Bank, Watertown	15,000	145,000		

The control of the small capital stock of these banks was obtained by a couple of adventurers, who then used their stock control to borrow some \$910,000 from such banks on notes and other securities much of which are worthless. The outcome is expected to be a very heavy loss to the depositors, whose deposits aggregate about \$1,439,964. The menace of a banking system which permits loans to be made on very small capital could scarcely be more effectively illustrated than by this occurrence in Minnesota.

At the recent convention of the United Farmers of Alberta a resolution was passed in favor of petitioning the Dominion government to sanction the establishment of local banks with provincial charters. In speaking to this resolution, Mr. Vere Brown, western superintendent of the Canadian Bank of Commerce, drew attention to the fact that the first responsibility of the government of

## Strong Words of A Guelph Veteran

**He Says Dodd's Kidney Pills Saved His Life**

**James Black at the Age of Eighty-Five is Shouting the Praises of the Great Canadian Kidney Remedy, Dodd's Kidney Pills.**  
Guelph, Ont., Mar. 10th. (Special).—"I would have had to undergo an operation, or be dead only for Dodd's Kidney Pills." These are strong words. But Mr. James Black, an old gentleman, who has been a resident of Guelph since 1880, has been suffering from kidney trouble and pain in his back. Mr. Black goes on to relate, "and a friend told me to try Dodd's Kidney Pills. When I had used half a box I began to pass sand and gravel. I have had a pound of it in a bottle to show people."

"I also had cramps in my legs so that I could not sleep at night. I used 14 or 15 boxes of Dodd's Kidney Pills, and now I am cured of all these ailments."

Mr. Black who is in his eighty-fifth year, is confident that he owes his life to Dodd's Kidney Pills, and never tires of singing their praises. "They are worth twice their weight in gold," he says.

Dodd's Kidney Pills have long ago earned the name of "The Old Folks' Friend." For the kidneys are the first to feel the strain of advancing years. Acting directly on the kidneys, and strengthening those organs, they drive away an old person's thought "I feel young again."

## Rumanian Queen in France

**Paris.**—Queen Marie of Rumania, accompanied by her daughters, the Princesses Elizabeth, Marie and Elena, have arrived in Paris. They received a warm welcome.

A despatch from Geneva February 23, said the queen of Rumania and her daughters had fled from Bucharest for England, fearing a revolution in Rumania.

## Ontario Seed Oats

**Ottawa.**—Nearly 500,000 bushels of superior quality Ontario oats have been shipped to the western provinces for seed purposes. The seed inspection staff examined every carload at points of shipment and seed certificates were issued and the oats purchased only when they were free from wild and noxious weed seeds, and of superior quality of grain.

Canada is towards those whose money is deposited in the banks, and he pointed out that taking at random the case of our nearest neighboring state, namely, North Dakota, there had been failures of small banks in that state alone since 1893 which had involved losses to depositors aggregating \$301,000.

The echoes of the Alberta convention have hardly died away, before the above failures are chronicled. Imagine what the effect would be if a similar occurrence had happened in any one of our three western provinces—imagine depositors at 14 different places in Alberta, to an aggregate of \$1,439,964 facing the loss of a large part of their savings.

Whatever disadvantage may exist in the service rendered the western farming community by our chartered banks, it is questionable if the introduction of local banks as suggested by the farmers of Alberta would be a successful or desirable remedy.

## Majority of Workers Opposed to Strike

**Berlin.**—The Vorwaerts, the socialist organ, reports that as a result of the secret ballot taken on the strike issue in eighty Berlin plants where more than 20,000 workers were opposed, and that 7,900 were in favor of a strike.

The workmen in numerous foundries, the newspapers adds, were stampeded into a strike by the radicals before the soviet took official action.

Gustav Noske, minister of defence, has ordered the troops to arrest all strikers or leaders of the strikers who are guilty of rioting or intimidating workmen.

## Food for Poles

**A Total of 17,000 Tons Has Reached Danzig**

**Paris.**—The following statement was issued by Herbert Hoover, United States relief administrator:

"The ship Westward-Ho reached Danzig carrying 6,000 tons of food for Poland, the gift of the combined American committees of Jews and Poles. The food will be rushed to Warsaw by rail for distribution by local committees under the direction of representatives of the United States relief administration. The plan so successfully operated in Belgium and Northern France."

"A total of 17,000 tons of food has reached Danzig for Poland during the past three weeks. This is the beginning of a total monthly program of 50,000 tons, necessary pending the 1919 crop. Other ships are en route. Local co-operation is extensive and intelligent, and each fresh arrival of food is received with honors by the public, and is accepted as proof that America will see to it that the new republic has a chance to find itself and quickly become self-supporting."

## Ontario Seed Oats

The seed inspection staff examined every carload at points of shipment and seed certificates were issued and the oats purchased only when they were free from wild and noxious weed seeds, and of superior quality of grain.

**Paris.**—The French government is asked to make every effort to secure the punishment of all German officers and soldiers found guilty of plundering or causing devastation in the occupied regions of France, in the report made by Senator Reynold, on behalf of the senate committee which recently visited the devastated districts.

The report asks the government to call the attention of the allied powers to the German methods of destruction and urges the government to obtain restitution of stolen property. The government is urged to hasten material reconstruction and to aid the economic life of the people affected.

## Safe Retreat for Kaiser

**Pan Germans Say Government Must Furnish Protection**

**Berlin.**—The German national assembly, the Ebert government is in honor bound to furnish a safe retreat on German soil for former Emperor William and his wife, according to a proclamation adopted by the pan-German league at a meeting held at Bamberg, Bavaria. The proclamation further demands that political responsibility for the suicidal armistice of November 11 be definitely fixed and the guilty parties expelled from the public service.

The proclamation of the pan-Germans, who apparently learn nothing or forget nothing, begins with the accusation that the collapse of Germany was due "solely to traitors among our own people, who are openly boasting of their achievements; and also to lack of courage and determination on the part of men at the head of the national government and the government of the federated states who failed to stem the tide of revolution. The pan-Germans announce they have no confidence in the new government and that they do not believe that the present form of government is sufficient for the needs of the German people."

At their meeting the pan-Germans gave General Ludendorff, former chief assistant to Field Marshal von Hindenburg, a vote of gratitude and absolved him from the "momentous measures he was forced to adopt at the end of his military career."

The declaration is signed by well known pan-German political, industrial and military leaders.

## Why Can't I Get To Sleep?

Thousands of people all over the country ask this question, but still continue to toss night after night on a sleepless bed, and it is impossible for them to get a full night's refreshing sleep.

Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system that it cannot be quietened except by the pernicious use of opiates or narcotics. Or again, you have heart palpitation, and sensation of "sinking," a feeling you are going to die, or perhaps you wake up in your sleep feeling as though you were about to choke or smother, and—then you can get relief is to sit up in bed. To all who suffer in this way, Milburn's Heart and Nerve Pills offer an inevitable boon. They bring back the much-needed night's rest by improving the tone of the nerves, strengthen the heart, enriching the blood and making the whole organization act in harmony—then you sleep as peacefully as a child.

**Dr. J. J. Lister.**—"At night I could not sleep. I had to sit up in bed, my mind was so full of worry. When I walked up stairs I would get all out of breath. A friend recommended Milburn's Heart and Nerve Pills and after using two boxes, I can sleep all night and am not out of breath."

# New Germany Fears Fall of Government

London. — The possible fall of the German government is reported in numerous special dispatches received from Berlin. The members of the government have arrived at Berlin to consult with the workmen's council, and a manifesto has been issued. All the correspondents report the situation is grave.

Berlin. — The government has issued a long manifesto from Weimar, denouncing the terrorist attempts to get rid of the national assembly. It proclaims faithfulness to the principles of democracy.

"Greater than the political danger is the economic distress," says the manifesto. "We cannot feed ourselves from our own supplies until the next harvest. The blockade is eating away the vitality of our people. Thousands perish daily from ill-nourishment."

The manifesto denounces strikes, saying: "Every strike brings us a step nearer to the abyss. Only work can save us."

"The manifesto promises the socialization of suitable industries and the establishment of industrial councils, representatives of all the workers and freely elected. It closes with a strong note, asserting the determination of the government to wage relentless war against terrorism, concluding: "Whoever assails the life of the nation is our enemy."

## Facts of Importance

Which Will Have Weight in Determining Future Arctic Activities

Ottawa. — The landing of Storker and his party on the northern coast of Alaska, after floating for seven months on an ice pack in unknown Polar seas, is considered of first importance by Vilhelm Stefansson, commander of the Canadian Arctic expedition. Several important facts are established as an outcome of the re-entry into civilization at Fort Yukon, Alaska, of Storker, which will have great weight in determining future Arctic activities, according to the statement of Mr. Stefansson when interviewed by the Canadian Press.

Mr. Stefansson said that three outstanding facts were established by the landing of the ice explorers:

First, that the generally accepted theory among Polar explorers and geographers that an ocean current flowing westward parallel to the coast of Alaska and Siberia existed, is discredited.

Secondly, that the so-called Keenan's land, which is marked on all modern Polar charts somewhere in the region of 74 degrees north latitude and 140 degrees west longitude, is non-existent.

Thirdly, it is a final demonstration of the soundness of Mr. Stefansson's claim that food supplies from the outside may be dispensed with in Arctic expeditionary work, a constant source of food always being available in the form of seal and Polar bear meat.

"Lastly," said Mr. Stefansson in conclusion, "the party penetrated 155 miles further north than anyone else has done in that part of the ocean."

## League of Nations Criticized

Washington. — In the first prepared address of the league of nations delivered in the senate since the constitution of the proposed league was made public, Senator Poindexter, of Washington, Republican, declared entrance of the United States into the league would mean a surrender of American rights, privileges and sovereignty, the abandonment of the Monroe Doctrine and a violation of the constitution. The constitution of the league, he said, was conflicting, indefinite and uncertain, and the machinery which it proposes to set up "similar to the Soviet government of Russia."

All philosophy lies in two words, sustain and abstain.—Epictetus.

## Former Kaiser Stone Broke

Appeals to Go. — Revolutionary Government for Funds

Weimar. — The former German emperor, it is learned from competent sources, recently appealed to the German revolutionary government for money. It was said, in his behalf, that it was impossible for the former emperor to continue living upon the bounty and good will of the Dutch noblemen in whose castle he now resides.

Herr Hohenzollern, it is said, declared he already had been forced to borrow 40,000 marks, and his host could not continue as a debtor. He asked that he be allowed at least a portion of his private fortune.

The government, after considering the matter, agreed to the former ruler's request and instituted a detailed investigation to determine what portion of the former emperor's fortune really was his and what portion belonged to the government. Investigation showed that the former ruler might legally claim 75,000,000 marks as his own, but the government decided to allow him temporarily only 600,000 marks to meet present indebtedness and future expenses.

The correspondent's informant, in calling attention to the development, declared it put an end to rumors that the former emperor had been able to take large sums of money with him when he fled into Holland.

## British Expedition Held Out

Sir Percy Sykes Held Shiraz for Three Years Against All Odds

London. — The forces under Brigadier-General Sir Percy Sykes, who advanced into Persia toward Shiraz, in southwestern Persia near the Persian Gulf, three years ago, were received last month by other British forces sent from India, according to an announcement in the house of lords by Earl Curzon. Early in 1916 General Sykes was sent to southern Persia to raise a force of Persian tribes to replace the mutinous gendarmes. At the head of only 500 men and two light guns, General Sykes, Lord Curzon said, made an adventurous march through hostile territory and eventually established himself at Shiraz.

During the years in Shiraz, before the relief force came, General Sykes created a Persian force of 6,000 men led by British officers and strengthened by 800 Indian troops. General Sykes and his force were in constant danger from hostile tribes and the machinations of Turkish and German agents but he managed to keep splendid control of the situation.

## Hunger Typhus in Moscow

Famine Is Made Worse by Lack of Medicine

Paris. — The soviet government in Moscow is now regulating the number of baths each person is permitted to take in the various public and private bathing places, and for this purpose has divided the population into three categories, according to French refugees arriving here from Russia.

Those in the first category are allowed to bathe twice a month, it is said, and those in the second category once a month, while those in the third category never.

The cost of food in Russia is declared to be prohibitive when food can be obtained and a famine, made worse by lack of medicine, was reigning in Moscow when the French left.

The Bolsheviks call this "hunger typhus," and it claims from two thousand to three thousand victims daily.

Premier Lenin, the refugees say, is not affected by the food problem. Lenin had plenty to eat, and his bill for fruit and vegetables in a recent month amounted to 60,000 roubles.

Over 1,000 bales of hay have been shipped from Moscow Lake, northeast of The Paz, this winter, and 4,000 more bales have yet to be shipped.

London's 22,000 policemen guard more than 4,000 miles of streets and at least 250,000 houses and shops.

## Wedding in Westminster Abbey

Public Greatly Interested in Social Events

London. — Princess Patricia of Connaught, and Commander Alexander R. M. Ramsay, R.N., were married at Westminster Abbey, February 27th. No other social event since the beginning of the war has caused such public interest. Crowds assembled early along the route over which the princess drove with her father, the Duke of Connaught, from St. James Palace to Westminster Abbey.

The ceremony was performed by the Archbishop of Canterbury, assisted by other noted ecclesiastics in the presence of King George and Queen

HON. MRS. A. R. M. RAMSAY (Princess Patricia)

Mary, and a great assemblage of the members of the royal family, distinguished officials of the British and foreign governments, and friends and visitors from abroad.

In the fashionable audience in the great nave of the abbey seats were found for a number of the many friends of the princess, among the plain people, and also representatives of charitable organizations in which she was interested.

The bride entered the abbey by the west door. Her gown was of white brocade paneled over silver lace, the outer gown being caught up with silver laces. She carried a bouquet presented by "Princess Patricia" Canadian regiment and tied with the regimental colors.

The procession was led by a choir singing "Praise My Soul, the King of Heaven." The gentlemen ushers followed, and then came Princess Patricia, with her father. They were followed by the Earl of MacDuff, eldest son of the Duchess of Fife, and the Hon. Simon-Ramsay, as pages, bearing the "Princess" train. Then came Lady Jean Ramsay with Princess Ingrid of Sweden, Lady Ira Ramsay with Lady Mary Cambridge, Princess Maude with Princess Mary, and Lady Helena Cambridge with Lady Victoria Cambridge.

The bride was given away by her father. During the service the choir sang the 67th Psalm, the hymn, "O Perfect Love," and the anthem, "Who is Like Unto Thee, O Lord."

New Government in Uruguay Montevideo. — With the inauguration of Dr. Baltasar Brum as president, Uruguay begins a commission form of government for the republic, the commission being formed of the president, elected by the direct vote of the people, and nine commissioners appointed by the two houses of congress.

In addition, the president will have the usual cabinet of nine members, of whom he will name three and the commission six.

# All Classes Must Take Responsibility

## Democracy for Sweden

May Mean Far Reaching Changes in Relations With Outside World

Stockholm. — Sweden, until recently a stronghold of conservatism, is likely to acquire social democratic domination that may mean far reaching changes in her political and social force and her economic relations with the outside world. The landside has gone so far that so sound a student of political balances as Riksdagman Per Albin Hansson, Bjalmar Branting's right hand man, declared at Falun:

"I am convinced that the social democrats will be the majority party in the all-day reconstituted first chamber after this year's elections. It now seems certain that the second chamber will contain a socialist majority so as to form a government."

"Under these circumstances, there is only one possibility, namely, a pure socialistic government. This is sure to be realized in a short time and then we shall have the parliamentary power to realize our ideals."

Mr. Hansson added that this aim would be attained without shedding a drop of blood. His address, from which the foregoing was taken, was entitled, "Democracy or Dictatorship." It clearly differentiated between the aims of the majority and minority socialists. Mr. Hansson referred with anger to the Russian Bolshevism.

## Drastic Terms Imposed

Germany's Use of Airplanes Is Greatly Limited

Paris. — Marshal Foch presented to the council of the great powers the military terms to be incorporated into the peace treaty. These will be considered with the naval terms already submitted to the council.

The military terms provided for the disarmament of Germany down to twenty divisions of ten thousand men each, including fifteen divisions of infantry and five of cavalry. Severe restrictions are placed on the manufacture of all classes of war materials and the military and commercial use of the airplane is limited to the minimum.

Beyond Marshal Foch's presentation of the terms, they were not discussed.

## Allied Forces Defeat Reds

Troops in Retreat Leave Guns and Ammunition

Athens. — Greek troops, operating with detachments of French and Italians, have advanced north of Odessa, pursuing the Bolshevik forces along the Dniester river. After a short fight they have occupied the fort and town of Tiraspol, on the right bank of the Dniester, 53 miles from Odessa, according to a Saloniki dispatch. The retreating Bolsheviks have abandoned many dead and wounded and have left guns and munitions in the hands of the allied forces.

## Revolt in Barcelona

Growing More Grave and More Troops are Wanted

Madrid. — The situation in Barcelona has grown worse and the authorities there have requested the Madrid government to send forces of men necessary to meet the situation. It is reported that a revolutionary league has been formed in Barcelona with the purpose of cutting the water mains and electric cable. Wednesday night troops patrolled the city, which was in complete darkness.

Man Who Found Nickel Sudbury, Ont. — News has reached here of the death in Ypsilanti, Mich., of James Stobie, the man who first found a nickel ore body in Sudbury district and the discoverer of Mount Nickel and Stobie. He became very wealthy and took up farming after his prospecting experience. Of late years his life had been given over to the advancement of religion, to which he gave liberally.

## London. — Addressing a mass meeting at Walford, Rt. Hon. James Henry Thomas, Labor member of parliament for Derby, and general secretary of the National Union of Railway, said:

"The next three weeks may determine whether our country, after emerging successfully from the world war, can avoid an industrial dispute whose consequences may be almost as dangerous as defeat by Germany. It is essential that all classes, shall understand the situation, and without class prejudice or bias, recognize their responsibility, which they cannot escape."

"For four years the industrial life of the country has been conducted on borrowed capital, which has created an atmosphere fatal to sound economic progress. You will have to do what the nation must do—retrench and build up your losses as soon as possible."

Regarding the railway situation, Mr. Thomas said that three courses were open—the shareholders must have less; the public must pay more, or the state must subsidize the concern. The real difficulty of the moment was to find a permanent standard, owing to the variable and abnormal cost of living. There must be a democracy in justice for all classes. A fatal mistake would be made by either side assuming that because the consequences are so terrible, the other side would give way."

## Irish Republic Not Practical

Ninety Per Cent. of Trade Is With England

Chicago. — "Ireland would always be dependent on Great Britain for prosperity and dominion. Home rule should be preferable to independence," Sir Horace Plunkett, who was chairman of the Irish convention said before the Irish Fellowship club.

"We may live to see the end of wars and see the world in such a state that no armament is needed," he said. "We expect that just as we do the millennium. But until that time comes when that little problem of the league of nations is settled at Paris, and not only settled, but has been tested, no country can deal with problems affecting itself without due regard to its strategic position."

The question is, shall Ireland establish her own military defenses, rule herself, or shall it depend to a greater extent upon other countries for support? An Irish republic at the present time is not practical."

The speaker said ninety per cent of Ireland's trade was with England.

## Cruelty in South Russia

Hostages Shot Down With Machine Guns by Bolshevik Salons

London. — Reuter's correspondent in South Russia, who travelled to the Caucasian coast aboard the "veteran cruiser Grafton," which fired more shells in the war than any other British warship, telegraphs from Ekaterinodar, that the Bolsheviks have taken as hostages a hundred notables, including Generals Ruskay and Radko Dimitrieff, together with several ladies. These hostages were driven in motor lorries to a spot where they were placed against the cliff and shot down with machine guns by Bolshevik sailors. Those who still showed signs of life were hacked to death with sabres and cutlasses.

## Power Boat Built for Eskimo

Edmonton, Alta. — A large power boat is being built at Edmonton for the Eskimo living at the mouth of the Mackenzie river. The craft is 40 feet long, and will cost \$2,700 by the time it has been delivered. A number of small schooners have been built for these Eskimo in previous years by Edmonton builders.

## Should Educate Foreigners

Winnipeg, Man. — Drastic steps should be taken immediately to educate all children of foreign birth in the country and prevent the spread of crime. This is the advice of the Manitoba grand jury after inspecting all governmental institutions.

The jurymen claimed that eighty per cent. of the crime coming up for hearing before them in this assize was committed by those of foreign birth. Most of the girls and boys appearing as witnesses could neither read nor write. By a more forcible method of compelling the children to attend school the amount of crime in Manitoba would decrease.

Regina, Sask. — The grain growers of Manitoba in February, 1918, organized a co-operative system of shipping live stock and they have shipped to the Union stock yards, St. Boniface, 749 hogs and 200 cattle, on which was realized \$46,000. A Kolli sent a Durham bull which weighed 2,375 pounds and sold for 10½ cents per pound, or a total of \$248.37, a record price for this class of beef stock. J. W. Cunningham superintended the shipping for the association.

## It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezine, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezine, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never influences or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

## Takes Time

"Charley," said young Mrs. Torkins, "have you a minute to spare?"

"Yes."

"Well, I wish you would tell me exactly what is meant by a 'league of nations' and 'freedom of the seas.'"

Worms are encouraged by morbid conditions of the stomach and bowels, and so subsist. Miller's Worm Powders will destroy these conditions at once, immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the younger constitution, and as such it has no superior.

## New Mines Opened

Output of Coal in Alberta Is Increasing

Edmonton, Alta. — Some interesting figures have been compiled by John T. Stirling, chief inspector of mines for Alberta, showing the output of coal in the province during the past year and showing its relation to that produced in all Canada. During the year the consumption of coal in Canada was 37,237,065 tons, of which 22,957,065 tons were imported from the United States and of that 2,559,041 tons were imported into Western Canada.

During the year 6,148,620 tons of coal were produced in Alberta, 100,470 tons of briquettes, 32,858 tons of coke and 9,988 tons of shale for the making of bricks. There were 7,687 tons of bricks sold. There were, during the year 1918, 317 coal mines in operation in the province of Alberta, and two copper ore mines and two shale mines.

Seventy new mines were opened during the year, also as well as nine which were re-opened. Offsetting this to a certain extent there were 71 abandoned.

It is interesting to note that to operate these mines on an average 2,633 persons above ground and 6,144 persons below ground were employed.

## Regiments to be Reorganized

Regina, Sask. — Col. J. A. Cross, D.S.O., Regina, has received instructions from Ottawa to reorganize the four city militia regiments in Saskatchewan, the 95th Saskatchewan Rifles in Regina, the 60th Rifles in Moose Jaw, the 105th regiment in Saskatoon and the 52nd Prince Albert volunteers. Steps toward the reorganization of these units have already been taken. A scheme is being worked out in Ottawa at the present time, according to word received at Regina, to perpetuate not only the militia regiments, but the overseas units as well.

## Minard's Liniment Co., Limited.

Gentlemen: My daughter, 13 yrs. old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LINIMENT completely cured her and she has not been troubled for two years.

Yours truly,

J. B. LIVESQUE.

**Away With Depression and Melancholy**—These two evils are the accompaniment of a disordered stomach and torpid liver and mean wretchedness to all whom they visit.

The surest and speediest way to combat them is with Parmelee's Vegetable Pills, which will restore the healthful action of the stomach and bring relief. They have proved their usefulness in thousands of cases and will continue to give relief to the suffering who are wise enough to use them.

## Wins First Prize for Wheat

Winnipeg, Man. — The rural municipality of Portage la Prairie won 25 prizes in the collection of exhibits at the Winnipeg Seed Fair. Dr. McVicar captured the first prize for registered Marquis wheat in the provincial competition. Though Mr. McVicar came to Manitoba from Scotland late in years, he has proven himself to be a very successful farmer. Prior to coming to Canada he was engaged in pedagogic work.

Some men do some mighty queer stunts for the purpose of keeping their names before the public.

## A Household Medicine—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil

will find that no man's ailments would not be without it in the house. It is truly a household medicine and it is efficacious in dealing with many ordinary complaints it is cheaper than a doctor. So, keep it at hand, as the call for it may come most unexpectedly.

Don't meddle with the affairs of other people and you will have that much less to worry about.

## THE SQUARE DEAL PAYS

And square with the enemy every man gets when he separates himself from his corn by Putnam's Corn Extractor. For fifty years "Putnam" has cured every man it treated—use "Putnam" if only it's painless and sure, 25c at all dealers.

## Beekeeping Profitable

Production of Honey in Western Canada Steadily Growing

Although the production of honey in Western Canada is steadily growing, there is room for a considerable increase. Very few are the places in Canada where the industry cannot be carried on profitably. At all the government experimental farms, a considerable quantity of honey has been produced yearly for a number of years. White and alkali clovers have been the principal sources of honey at all the farms, with the exception of that at Lethbridge, where most of the honey is produced from alfalfa, which is grown with irrigation. Especially to the farmer on irrigated land is bee keeping proving a profitable side line, for in addition to alfalfa he can grow clover and white and alkali clover and most other crops favorable to the production of large quantities of honey of first class quality.

SHIP TO US DIRECT

The top market price paid and equitable grading made.

NO DELAYS AT ANY POINT.

We are registered with and recognized by the United States War Trade Board and all of the Collectors of Customs under license P.B.F. 30, and you can send your furs to us direct by our tag or any tag, changed to suit, if marked "Furs of Canadian Origin," and your furs will come right through.

-- FAIR GRADING --

The rules and ethics of the exchange do not permit of sending out altering price-lists, yet we give you an exact and expert grading and pay you at a rate of five to twenty-five cents more on the dollar than the average advertising fur company as we cut out all middle-man's profit in dealing direct with you.

## News in Brief

The Imperial Bank have just recently opened three new branches in Alberta, viz: Spring River, Waterhole and Crossfield.

The Lacrosse Road Fair held last week was the largest, in number of exhibits ever held in the district, there being between fifty and sixty entries of wickerware and the exhibits were extra good.

At the opening of the criminal session of the supreme court at Lethbridge, the first case on the docket was that of Pete Pankenko and Pete Dohle, charged with the murder, on November 16th last, of John Gusevichuk at Staffsville. The men are all Austrian miners. Gusevichuk was hit on the head with a maul and iron bar. His skull was fractured and his body considerably bruised by kicks.
